

Capability Statement

Design and construct solutions for hospitality venues, medical suites and retail spaces.

About Open Projects Group

Established in 2008, Open Projects Group quickly gained a reputation as industry leaders in commercial shopfitting. Since then our talented team have been creating incredible, award-winning venues across Queensland and New South Wales.

Featuring in-house services such as specialist joinery, stainless steel fabrication and commercial kitchen manufacture, we ensure your personalised service is streamline and efficient. All production is undertaken in our purpose built 3600m² factory located in South East Queensland. We facilitate the entire process from site visits and submissions, through to specifying and supplying across all areas.

Open Projects Group has a strong focus on partnership and collaboration.

We pride ourselves on staying at the forefront of the industry to deliver streamline, comprehensive services. Our finished projects, be they large or small, reflect the quality our clients expect and exemplify our excellent track record. Whether you're opening or refurbishing a small office, commercial venue, medical facility or hospitality venue, we can effectively manage the entire workflow with our versatile team.

Shopfitting

Open Projects Group transforms spaces by providing solutions driven by experience and customer service.

We employ over 75 staff covering Queensland and Northern NSW and our team of highly-qualified tradespeople have industry specific experience that will take your venue off the plan, to ready-to-operate.

Our superior fit-out components are manufactured in-house to maintain control of our projects and allow us to respond to our clients efficiently and effectively.

We pride ourselves on staying at the forefront of the industry to deliver the most comprehensive services available.

Our incredible variety of finished projects, large and small, exemplifies our outstanding track record.

Simply put, Open Projects Group will exceed your expectations by providing a seamless shopfitting experience while enjoying unparalleled service and satisfaction.

Interior Design

Our interior design team works with you to make artistic yet functional spaces come to life.

Open Projects Groups' design team has combined experience in the concept and technical drafting of commercial, residential and retail spaces. Whether it's the refurbishment of an existing space or a brand-new venue, we work with our clients to formulate areas built around appearance, functionality and flow.

Our design packages are adaptable to suit the style of the project and can include schematic, concept, 3D, artistic impression and architectural drawings.

The primary focus of our interior designers is to realise our clients ideas and dreams while offering valuable, practical, industry advice.

Already have your own architect or designer?
We've enjoyed working with the industry's best,
we welcome collaborations!

Commercial Joinery

Open Projects Group are innovators of custom cabinetry, joinery, banquette seating, wall cladding and decorative finishes. In addition, we are the number one designer and builder of gaming bases in Queensland.

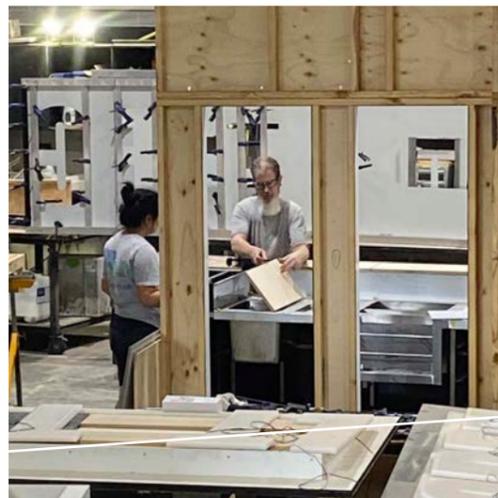

Quality craftsmanship throughout the manufacturing process is paramount.

Our joiners and cabinet makers have many years experience working on some truly outstanding venues.

Our full service, purpose-built factory handles it all, and because every project has its own unique requirements, we pre-assemble and double check all components prior to leaving the joinery to ensure your install is trouble-free.

Bespoke pieces made with passion

Innovation starts here

Andergrove Tavern

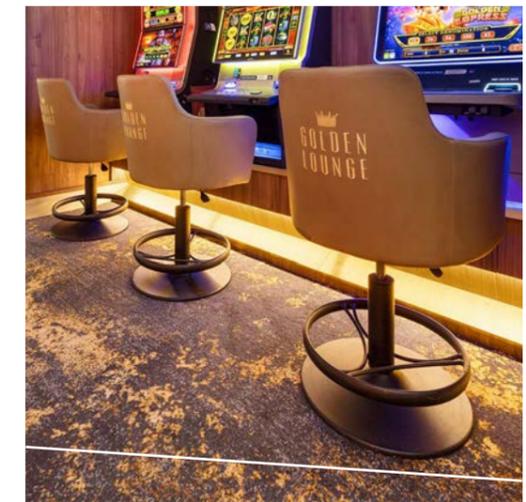

Gaming Furniture

Our bespoke, modular gaming bases are designed for comfort and functionality, making them user-friendly for staff and customers alike.

Crafting a gaming environment for your customers is an Open Projects Group specialty.

Every venue is assessed for its individual requirements, from floor space circulation and flow, to machine layout, lighting and signage.

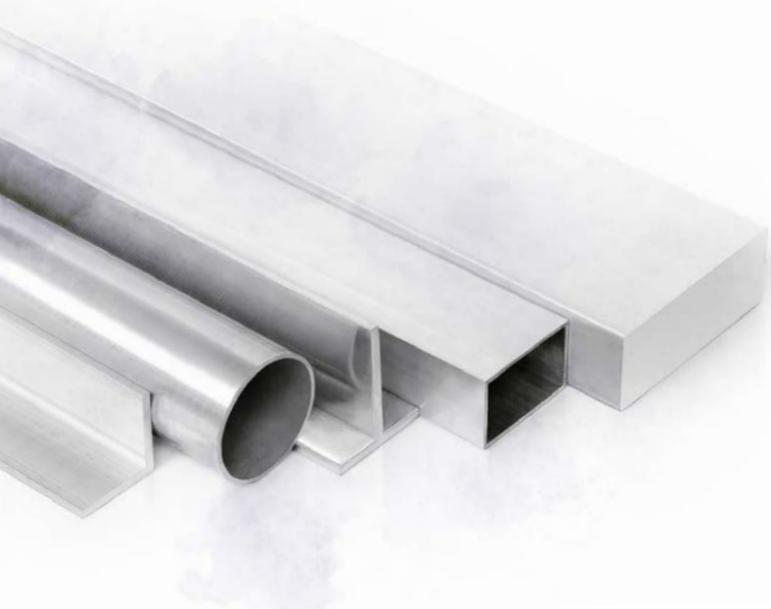

Privacy screens are another important part of the player experience. OPG have a range of screens that integrate with our bases, ensuring harmonious design and seamless integration.

Stainless Fabrication

Our expertise in metal fabrication allows us to provide a variety of stainless steel and metal work solutions.

Stainless steel is affordable, fire and corrosion resistant, easy to clean and structurally sound, making it an excellent choice for commercial kitchens.

Our experienced tradespeople are qualified in all aspects of stainless steel fabrication, providing superior quality on every job. Working in conjunction with our joinery and equipment divisions through coordinated production, ensures seamless installation and integration.

Commercial Kitchens and Bars

Our enormous range of equipment and appliances features all the major brands and includes everything your commercial kitchen requires.

Open Projects Group source the latest products on the market to suit your business and budget. We also offer energy efficient equipment alternatives to lower running costs and maximise serviceability and functionality.

A fully-trained chef heads our experienced equipment team and will work with you to deliver your complete kitchen package.

Industry Development and Community Support

Open Projects Group has formed on-going, exciting relationships with TAFE Queensland and the Australian Industry Trade College (AITC) which includes apprentice training, school-based apprentice training, Recognition of Prior Learning accreditation and up-skilling.

Students begin work experience programs to choose which trade they would like to pursue. With the diversity at OPG, they get a first hand look at a large-scale business and the opportunity to discuss trade paths and their options.

Combined with hands-on learning from our master tradespeople, OPG trained apprentices are consistent award winners.

We are also proud supporters of our local community. Management and staff frequently partake in fundraising events such as Vinnies CEO Sleepout, to help the people in our region live their best life.

Open Projects Group apprentice Josh, shares his journey with AITC students on a tour of our facility.
